

AP490 Outdoor Patio Speakers

Completing the lineup of the award-winning AP850, AP650, AP525 range, the AP490 is a small footprint patio speaker that packs a powerful punch in a compact design. The included wall-mount bracket is the most flexible you will find, giving control over directing your sound to exactly the right place. The vertical and horizontal tilting mechanism gives you options in even the most demanding situations. Suitable for both residential and commercial installations, the AP490 comes with an included, built-in 70V transformer with taps at 2, 4, 8 and 16 watts.
