

BTP525 Outdoor Patio Speakers

OSD Audio's BTP-525 Wireless BT patio speakers from Outdoor Speaker Depot - an easy plug and play choice for outdoor sound systems. These speakers are IP54 rated and feature a frequency response of 38Hz-20kHz +/- 10dB, making them perfect for any outdoor setting. With a power handling of 100W, impedance of 8 Ohms, and sensitivity of 89 db, these speakers deliver a powerful, clear sound. The speakers come equipped with Wireless BT version 5.0 and are compatible with A2DP standard, making it easy to connect your Wireless BT-enabled device to the speakers. The gold-plated spring-loaded binding posts and full motion bracket make for easy installation. The speakers also feature a composite resin low resonator cabinet and powder-coated rust-resistant aluminum grille, making them durable and long-lasting.
