

## BTP650 Outdoor Patio Speakers

---

Introducing the BTP650 Wireless BT Patio Speaker Pair, the perfect addition to your deck or patio. These sleek and modern speakers are designed to withstand all weather conditions with an IP54 rating and are constructed with a water-resistant treated paper woofer and a 1" silk dome tweeter. With a power handling of 150W, you can enjoy powerful sound no matter the occasion.

The speakers feature Wireless BT Version 5.0 and are compatible with A2DP Standard, making it easy to connect to any Wireless BT-enabled device. The powder-coated rust-resistant aluminum grille and gold-plated spring-loaded binding posts add to the durability of the speakers, while the composite resin low resonator cabinet provides clear and crisp sound.
